1 Introduction

The Joseph Rowntree Reform Trust commissioned Ipsos MORI to complete a poll of the general public across Great Britain on the state of the nation. This document presents the topline findings from the poll. Full data tables can be requested under separate cover.

Results are based on a total of 2,008 completed surveys from a quota survey of GB adults aged 15+, using random location sampling.

Surveys were completed face-to-face via CAPI (Computer Assisted Telephone Interviewing) on the Ipsos MORI omnibus (CAPIbus).

The data in this topline are based on all surveys completed between 18 and 24 July 2014.

An * indicates a score less than 0.5%, but greater than zero. Where percentages do not add up to 100 this is due to computer rounding or multiple responses.

Base sizes of less than 100 should be treated with caution and these results seen as indicative only. Bases of less than 30 should be treated with extreme caution and be seen as indicative only.

The data has been weighted by age, gender, region, working status, social grade, tenure and ethnicity.

About Ipsos MORI

Ipsos MORI, part of the Ipsos Group, is a leading UK research company with global reach. We specialise in researching Advertising (brand equity and communications); Loyalty (customer and employee relationship management); Marketing (consumer, retail & shopper and healthcare); MediaCT (media and technology); and Social & Political Research and Reputation Research. Over the past 60 years, the UK market research industry has grown in stature and in global influence. The companies that formed Ipsos MORI were there from the very beginning. In the Ipsos MORI story we trace the history of the firm, through its founders and luminaries, to celebrate how we have helped shape the research sector as well as the influences that have made Ipsos MORI what it is today.
